CERTIFIED CHAPTER LEADERS

Beth Vaughan, Houston CCL

I realized toward the end of my Gateway Voyage ® program in 2005, that something special was going on with our group. After I returned home to Houston I wanted to re live, re experience that something special. I decided to start offering an evening once a month where I would talk about the Monroe Institute and its programs then share a Hemi-Sync® exercise. At that time there was no availability of Outreach training at the institute so I did a lot of learning on my own. After my first couple of presentations I realized there was so much more to learn and a deeper understanding that I needed to fully convey all the benefits. In a couple of years the Institute started offering Outreach Training and I became certified. I learned what I was missing and more. It was only then that I realized how much I didn't know.

Pam Boyer created the Certification training for the TMI Local Chapter Network. She used the model provided by the Outreach Training and modified it to fit the needs of the Local Chapter Network.

Two Local Chapter leaders completed the training and became certified in 2011: **Laurin Bellg** and **Parvin Goldberg**. I want to congratulate them for the completion of this process. I encourage you if feel this is calling you to give it serious consideration. There is a lot of information that is available to you. It is important that we as volunteers seek to learn as much as we can about TMI and its history in order to inform and assist our Chapter Members. Our members affect our community and our communities affect humanity.

People may wonder how I will benefit. The benefits are numerous, mainly intangible because of the knowledge that is gained and eventually shared. There may be one person's who life changed because you were able to provide them with just the right information at just the right time.
